

# Warehousing & Distribution Services

## Flexible Warehousing Built Around Your Business

Lancaster Packaging provides scalable warehousing and distribution solutions designed to streamline your operations, reduce costs, and ensure your products are always where they need to be—when you need them.

### What We Offer

#### Custom Warehousing & Distribution

End-to-end support including receiving, storage, inventory management, and delivery—tailored to your operation.

#### Secure, Climate-Controlled Storage

Your products are stored in a safe, controlled environment to maintain quality and reliability.

#### Real-Time Inventory Management

Track inventory levels with precision to prevent stockouts and overstock situations.

#### Flexible Storage Solutions

Scale your storage space up or down based on seasonality, growth, or demand shifts.

### Specialized Programs

#### Stock Box Program

We store high-use items in bulk and release them based on your real-time needs—reducing lead times and ensuring availability when it matters most.

#### Just-In-Time (JIT) Delivery

Receive materials exactly when needed to minimize on-site inventory, reduce overhead, and support lean operations.

### Why Companies Partner with Lancaster Packaging

#### Streamlined Operations

We integrate directly into your workflow, eliminating inefficiencies and simplifying logistics.

#### Reduced Costs

Lower overhead by minimizing storage space, reducing excess inventory, and optimizing purchasing cycles.

#### Improved Supply Chain Reliability

Ensure consistent product availability with accurate inventory tracking and responsive delivery.

#### Expert Logistics Support

Our team manages everything from receiving to distribution so your team can stay focused on core operations.
